arkadin[®]vision

Be free to choose how you collaborate with your customers and colleagues anytime, anywhere, and on any device

Whether you're in the office, at home, or on the move, Arkadin Vision helps you control your day - and not allowing your day to control you

User friendly

- Instant access from your web browser, no local software download to attend meetings
- Interoperability with Skype for Business, video rooms, desktops, and mobile users
- HD video and screen sharing at the click of a button
- Extend the Arkadin Vision unified user experience with the mobile app, available from the Apple App Store for iOS devices

Quick to onboard

- Features Arkadin Smart Start, a dedicated training platform to accelerate adoption and onboard users quickly and easily
- No local software downloads or plugins required to join the meeting
- Email toolbars: Schedule, invite, and start meetings directly from Outlook and Chrome
- Training videos: Bite-size hints and tips to get you started

Simple to pay

- Affordable solutions with fixed licensing pricing to provide more financial planning control
- Procurement with ease; transparent terms and conditions to accelerate onboarding of solution
- Single collaboration provider with a single invoice

**Please note: Arkadin Vision is not to be used as an audio-only bridge*

"Arkadin demonstrates once again that they are on the cutting edge of where the collaboration market is headed. Arkadin Vision offers a solid mid-market alternative that will be ideal for businesses that require a cost effective solution for core collaboration and video functionality across multiple platforms."
