BlueJeans | Provided by **arkadin**

Leverage industry leading interoperability across all video endpoints, smartphones, and tablets

Support the widest range of video conferencing services and host all your face-to-face meetings with BlueJeans provided by Arkadin

Easy to use

- BlueJeans is the entryway for all video meetings
- Invite attendees directly from the platform
- Join an event from any device or service
- Utilize the intuitive interface to manage your meetings and collaborate

Interoperability

- Managing different pieces of hardware can be difficult, your meetings shouldn't be
- A browser and camera is all you need
- Join meetings instantly via a mobile device
- Connect traditional room systems with everyone else

Mobile video

- Stay connected to an ever increasing mobile world
- Allow remote employees to participate from any smartphone or tablet
- Engage with remote clients or patients via their mobile device
- Bring your own device and communicate with anyone, at anytime

"BlueJeans had an immediate positive effect on our productivity. It's ease-of-use helps us get users on board quickly and our suppliers and customers appreciate the fact we are able to get products out to market faster, and more effectively."

Tim Rubert

VP Sales & Business Development, Sarnova
