an
NTT Communications
Company

Cisco WebEx provided by Arkadin is the perfect match for advanced collaboration to boost your company productivity

Organize compelling online conferences and make high-level presentations with anyone, as easily as if you were face-to-face

Increase productivity

- Interact with teams around the world to finish projects faster
- Improve business efficiency by reducing email traffic
- Maximize resources without the time and expense of travel
- Demonstrate products, pitch ideas and gather immediate feedback

Conduct meetings with ease

- Powerful presentation, document, application, and desktop sharing
- HD video conferencing with up to six webcams
- Accessed from your PC or Mac, your iPhone, Android, BlackBerry, and any WiFi or 4G-enabled mobile device
- Bring people together instantly, at a scheduled time, or in your own personal collaboration meeting room

Experience the Arkadin difference

- A fully hosted solution with site implementation, provisioning service, and technical support - all with a single point of contact
- Arkadin customer service 24/7
- Affordable 'Software as a Service' delivery model with low cost of ownership, no maintenance costs, and free upgrades
- Full site administration service, setting up corporate preferences, and new users

"We wanted more than just an off-the-shelf service. Arkadin gives us the quality and features that only experts can provide."

Reiner Birn

Head of Telecommunication, Continental AG
